Yanny Nguyen

Active Security Clearance | (660) 238-3788 | YannyNguyen@gmail.com | www.linkedin.com/in/yanny-nguyen |
Portfolio Website: bobaphoever.github.io

Recent information technology graduate and Air Force veteran with a strong front-end and mobile applications development foundation. Excels in high-pressure environments, delivering results with precision and efficiency. Eager to contribute technical skills and a disciplined approach to a Junior Developer role.

PROJECTS AND WORK EXPERIENCE

• Engineered a mobile Android app using Kotlin and Android Studio, enhancing user engagement and providing a seamless mobile experience.
• Constructed a custom website for a photography business with HTML, CSS, & JavaScript, optimizing online presence and showcasing visual content attractively.
• Programmed an AI NFT Art Collection Minting webpage, automating the minting process and facilitating the creation of unique digital assets.
• Implemented a Web3 social media application using TypeScript and Lens Protocol, fostering decentralized communication and interaction.
• Designed a PowerApps application tailored for a military unit, streamlining internal processes and improving operational efficiency.

PROFESSIONAL EXPERIENCE

United States Air Force, Security Forces Member: November 2014 - Present
• Provided command, control, and communication for base defense forces protecting 905 acres of land with 17,000 personnel and over 70 mission partners, ensuring installation safety and operational readiness.
• Led teams providing security to a Joint Base with national critical assets valued at $4.5 billion. • Assisted multi-agency operations supporting POTUS and the US gov, strengthening foreign relations.
• Developed PowerApps application for a military unit, streamlined efficiency, and boosted morale for 150+ personnel.
• Supervised high-performing airmen in various operations, resulting in zero incidents over a 5-year period.

EDUCATION

University of Arizona Global Campus: Graduation - August 2023
• Bachelor of Science in Information Technology – GPA: 3.89
